Self-Care and Resilience

When life gets busy and our sense of well-being and balance is affected, we often forget to take care of ourselves or we look for quick fixes or solutions to problems. Building self-care into your daily or weekly routine can greatly improve resilience and prevent burnout.

Create a self-care and resilience plan: Use this worksheet to map out how and when to use these self-care practices and resilience building strategies. Identify what you need support with and find people and resources that can support you. Take time to discover these supports now so they will be easier to access when you actually need them.

Put a checkmark next to the items that you think might be helpful and that you are willing to try. Pick some key ones for you – many strategies may look interesting but focus on those you feel you will have time to work on and incorporate them into your daily or weekly routines:

- Write in a journal
- Volunteer for a cause meaningful to you
- Make a gratitude list
- Take a fresh air break
- Meditate or listen to guided visualization
- Cuddle with pets
- Treat yourself to a nice meal
- Take a nap
- Listen to music
- Practice yoga
- Lay in the grass
- Photography
- Read a good book
- Write a blog
- Spend time outdoors, if possible
- Go for a drive
- Exercise
- Join an online social club
- Nutrition – increase healthy food choices
- Turn off electronic devices
- Have a movie marathon
- Play a game
- Dance
- Wear something that makes you feel confident
- Join an online support group
- Have a virtual game night with friends
- Work in the garden
- Get creative: draw, paint, write a song, or cook a new meal
- Try a new hobby
- Have an adventure day
- Creative arts
- Spend time with your children – read to them, listen to their laughter, play with them, etc.
- Create a poster with images of a positive vision
- Listen to enjoyable podcasts or videos
